

INT. - COURTROOM - DAY

*Courtroom whatever who even cares*

Judge: Court is now in session! Is the prosecution ready?

Edgeworth: I am forever haunted by the murder of my beloved father at my own hands.

Judge: And the defence?

Player: Ready, your honour!

Judge: A new face, I see - wait, shouldn't you be working with a more senior lawyer?

Player: Er, well I was supposed to be with Apollo Justice...

Judge: Ah, say no more. I imagine he's been banged up again for his irritating voice.

Judge: Well, no matter! We must proceed - prosecution, your first witness?

Edgeworth: The darkness... is so inviting...

*Suddenly, there is a commotion outside the courtroom!*

Player: Wait... that sounds like...

Judge: Oh goddamni-

*The doors fly open! It's... it's Apollo!*

Apollo: And that, your honor, is why I believe they should bring back Maxibons!

Player: Apollo!

Apollo: Oh, hi <name>! How's it going?

Judge: We're in the middle of a trial, Mr Justice.

Apollo: Oh yeah! The trial! Did we get any evidence for that yet or...

Player: I spent all my time trying to get you out of jail! We've got nothing!

*Apollo smiles knowingly.*

Apollo: Oh, we have something... My Chords of Steel!

Judge: Please dear God no

Edgeworth: Yes... the pain... I deserve it all...

*Apollo is readying his Chords of Steel!*

<Don't intervene>

<Punch him right in his whiny little throat>

If don't intervene

Apollo: THE BUTLER DID IT! 9/11 WAS AN INSIDE JOB! JUSTICE ISN'T A STUPID NAME WHY DOES EVERYONE KEEP SAYING IT IS?!

*Apollo ranted and raved as the police stormed the building and dragged him away, presumably to some hole in the ground where no one could hear him.*

*I lost the case, my badge, and my wallet somewhere on the walk home.*

*I hope Apollo died.*

If punch

*You rear up your fist and punch Apollo straight in his throat!*

*He crumples like the wet blanket he is, scarcely able to breathe!*

Judge: My my! What an excellent swing!

Judge: For that, rookie, I'll rule in your favour!

Edgeworth: wait wh-

Player: Apollo! We did it!

*Apollo lets out a strained, very quiet scream.*

*It sounds like he's congratulating you on a job well done!*
